

Spring 2010 Training Courses

Operation & Maintenance of Wastewater Collection Systems

(followed by optional NEWEA exam)

Wednesday-Thursday, June 2-3, 2010

St. Leo's Hall, Waterbury, VT

8:30 a.m. - 3:30 p.m.

Sign-in begins at 8:00 a.m.

Communities must properly control collection systems to prevent contamination of groundwater and prevent the spread of waterborne diseases. EPA has placed special emphasis on the capacity, management, operation, and maintenance (CMOM) of wastewater collection systems to prevent sanitary sewer overflows, which degrade public health, destroy property, and add exorbitant costs to a community's infrastructure.

This day-and-a-half course will cover the EPA and VT DEC requirements for the proper O&M of wastewater collection systems. The topics to be discussed include components and rehabilitation of a collection system, pump station O&M, collection system safety, administration and recordkeeping, sewer operation and maintenance, and inspections and testing.

Students must bring a basic calculator.

IN ORDER TO TAKE THE EXAM, YOU MUST APPLY DIRECTLY TO NEWEA. You do not need to take the course to take the exam. Exam forms can be downloaded at: <http://www.newea.org/volcert.htm> or by phone at 781-939-0908
