

## Free World Water Monitoring Day Kits for all Vermont Science Teachers for Youth Education

Over *200,000*  
People in  
*85 Countries*  
Monitored in  
*2010*

**Kits available to all Vermont Teachers.** HACH DR-890 meter also available for loan to schools in the Lake Champlain Basin with free training and free reagents. Meter allows additional testing including Phosphorus testing.

World Water Monitoring Day™ is an international education and outreach program that builds public awareness and involvement in protecting water resources around the world by engaging citizens to conduct basic monitoring of their local water bodies.

Celebrate with us on **September 18**, or host your own World Water Monitoring Day anytime from **March 22 until December 31**

**Choose any stream, lake, bay or other waterbody where you can safely monitor then report your data at the website.**

FOR MORE INFORMATION on World Water Monitoring Day:  
**[www.worldwatermonitoringday.org](http://www.worldwatermonitoringday.org)**

**KITS PROVIDED FREE BY:**  
**The Vermont Association of Water Supply and Wastewater Treatment Operators**

**Kits completely free including shipping.** 10 students per kit  
100 kits to give out, we may limit number per school.
